Rule 8. Tie break rules. If the score is 3 – 3, then the team that wins individual games on the higher boards will be deemed the winner. This can be determined initially by adding together the winning boards. If team A wins on boards 1 and 4 (= 5) and team B wins on boards 2 and 5 (= 7) then team A wins. If this is equal, then the result on the bottom board is eliminated. e.g. If team A wins on boards 4 and 5 (= 9) and team B wins on boards 3 and 6 (= 9) then there is a tie on the first tie break rule as above but team A then wins 3 – 2 as the board 6 result is eliminated. If board 6 is a draw, then the result on board 5 is eliminated and then board 4 etc until a result is achieved. If all individual matches are draws then there will be a replay.
